Bowling Green, Ohio 43402

We have reviewed the Independent Auditor’s Report of the Wood County District Board of Health, Wood County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period January 1, 2017 through December 31, 2017. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Wood County District Board of Health is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR’S REPORT

June 22, 2018

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

Report on the Financial Statements

We have audited the accompanying financial statements of the cash balances, receipts and disbursements by fund type, and related notes of the Wood County District Board of Health, Wood County, Ohio (the District), as of and for the year ended December 31, 2017.

Management’s Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the financial reporting provisions Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(D) permit; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States’ Government Auditing Standards. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District’s internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management’s accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.
Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 of the financial statements, the District prepared these financial statements using the accounting basis permitted by the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(D), which is an accounting basis other than accounting principles generally accepted in the United States of America (GAAP), to satisfy these requirements.

Although the effects on the financial statements of the variances between the regulatory accounting basis and GAAP are not reasonably determinable, we presume they are material.

Though the District does not intend these statements to conform to GAAP, auditing standards generally accepted in the United States of America require us to include an adverse opinion on GAAP. However, the adverse opinion does not imply the amounts reported are materially misstated under the accounting basis Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(D) permit. Our opinion on this accounting basis is in the Opinion on Regulatory Basis of Accounting paragraph below.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the District as of December 31, 2017, and the respective changes in financial position thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances receipts and disbursements by fund type and related notes of the Wood County District Board of Health, Wood County as of December 31, 2017, and for the year then ended in accordance with the financial reporting provisions Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(D) permit, described in Note 2.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management’s responsibility and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected the schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 22, 2018 on our consideration of the District’s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District’s internal control over financial reporting and compliance.

WOOD COUNTY DISTRICT BOARD OF HEALTH
Wood County
Notes to the Financial Statements
For the Year Ended December 31, 2017

Note 1 - Reporting Entity

The constitution and laws of the State of Ohio establish the rights and privileges of the Wood County District Board of Health, Wood County, Ohio (the District) as a body corporate and politic. A ten-member Board and a Health Commissioner govern the District. The District’s services include communicable disease investigations, immunization clinics, inspections, public health nursing services and issuing health-related licenses and permits.

The District belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. Note 7 to the financial statements provides additional information for this entity. The District’s management believes these financial statements present all activities for which the District is financially accountable.

At the July 13, 2017 Board meeting, the District Board approved the agreement to establish a Regional Council of Governments (the Council) for Boards of Health in Ohio, along with the counties of Williams, Henry, Fulton, Defiance, Putnam, and Paulding. This Council will be known as the Public Health Services Council of Ohio, and commenced on August 1, 2017. The Council is made up of these seven member counties and is considered a joint venture.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The District’s financial statements consist of a combined statement of receipts, disbursements and changes in fund balances (regulatory cash basis) for all governmental fund types organized on a fund type basis.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are presented below:

General Fund The general fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds These funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The District had the following significant Special Revenue Funds:

   Levy Fund – This fund receives tax receipts to be used for health activities.

   Federally Qualified Health Center (FQHC) Fund This fund receives Medicare, Medicaid, insurance, self-pay, and other Health & Wellness Center fees, in addition to state and federal revenue for primary care services and family planning services.

Basis of Accounting

These financial statements follow the accounting basis permitted by the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (D). This basis is similar to the cash receipts and disbursements accounting basis. The District recognizes receipts when received in cash rather than when earned, and recognizes disbursements when paid rather than when a liability is incurred. Budgetary presentations report budgetary expenditures when a commitment is made (i.e., when an encumbrance is approved).
Note 2 - Summary of Significant Accounting Policies (Continued)

These statements include adequate disclosure of material matters, as the financial reporting provisions of Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03 (D) permit.

**Budgetary Process**

The Ohio Revised Code requires the District to budget each fund annually.

**Appropriations** Budgetary expenditures (that is, disbursements and encumbrances) may not exceed appropriations at the fund, function or object level of control, and appropriations may not exceed estimated resources. The District Board must annually approve appropriation measures and subsequent amendments. Appropriations lapse at year end.

**Estimated Resources** Estimated resources include estimates of cash to be received (budgeted receipts) plus cash as of January 1. The County Budget Commission must approve estimated resources.

**Encumbrances** The Ohio Revised Code requires the District to reserve (encumber) appropriations when individual commitments are made. Encumbrances outstanding at year end are canceled, and reappropriated in the subsequent year.

A summary of 2017 budgetary activity appears in Note 3.

**Capital Assets**

The District records disbursements for acquisitions of property, plant, and equipment when paid. The accompanying financial statements do not report these items as assets.

**Accumulated Leave**

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. The financial statements do not include a liability for unpaid leave.

**Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District must observe constraints imposed upon the use of its governmental-fund resources. The classifications are as follows:

- **Nonspendable** The District classifies assets as *nonspendable* when legally or contractually required to maintain the amounts intact.

- **Restricted** Fund balance is *restricted* when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

- **Committed** The Board can *commit* amounts via formal action (resolution). The District must adhere to these commitments unless the Board amends the resolution. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed to satisfy contractual requirements.
Note 2 - Summary of Significant Accounting Policies (Continued)

**Assigned** Assigned fund balances are intended for specific purposes but do not meet the criteria to be classified as restricted or committed. Governmental funds other than the general fund report all fund balances as assigned unless they are restricted or committed. In the general fund, assigned amounts represent intended uses established by the Board or a District official delegated that authority by resolution, or by State Statute.

**Unassigned** Unassigned fund balance is the residual classification for the general fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Note 3 - Budgetary Activity

Budgetary activity for the year ending December 31, 2017 follows:

<td><strong>5,148,041</strong></td>
<td><strong>260,191</strong></td>
</tr>
</tbody>
</table>

While reporting financial position, results of operations, and changes in fund balances on the cash basis, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

The major difference between the budget basis and the cash basis is that some funds are included in the general fund (cash basis), but have separate legally adopted budgets (budget basis).

The registrar fund is legally budgeted as a separate special revenue fund; however, this fund is considered part of the general fund for financial reporting purposes.

Note 4 - Deposits and Investments

As required by the Ohio Revised Code, the Wood County Treasurer is custodian for the District’s deposits. The County’s deposit and investment pool holds the District’s assets, valued at the Treasurer’s reported carrying amount.
Note 5 – Intergovernmental Funding

The County apportions the excess of the District’s appropriations over other estimated receipts among the townships and municipalities composing the District, based on their taxable property valuations. The County withholds the apportioned excess from property tax settlements and distributes it to the District. The financial statements present these amounts as intergovernmental receipts.

The County Commissioners serve as a special taxing authority for a special levy outside the ten-mill limitation to provide the District with sufficient funds for health programs. The levy generated $1,278,321 in 2017. The financial statements present these amounts as levy receipts.

Note 6 – Interfund Balances

Transfers

During 2017, the Levy Fund made transfers in the amount of $506,500. Of this amount, transfers were made to the General Fund totaling $32,000, and to other governmental funds totaling $474,500, to subsidize activities in those funds.

Additionally, during 2017, there was a transfer of $200,000 from the Personal Care Fund to the Levy Fund for indirect expenses incurred in prior years.

Also, the balance of the Debris Water Monitoring Fund of $478 was transferred to the Levy Fund in 2017.

Note 7 – Risk Management

Risk Pool Membership

The District is exposed to various risks of property and casualty losses, and injuries to employees.

The District insures against injuries to employees through the Ohio Bureau of Worker’s Compensation.

The District belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. PEP provides property and casualty coverage for its members. York Insurance Services Group, Inc. (York) functions as the administrator of PEP and provides underwriting, claims, loss control, risk management, and reinsurance services for PEP. PEP is a member of the American Public Entity Excess Pool (APEEP), which is also administered by York. Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the members’ deductibles.

Casualty and Property Coverage

APEEP provides PEP with an excess risk-sharing program. Under this arrangement, PEP retains insured risks up to an amount specified in the contracts. At December 31, 2017, PEP retained $350,000 for casualty claims and $100,000 for property claims.
Note 7 – Risk Management (Continued)

The aforementioned casualty and property reinsurance agreement does not discharge PEP’s primary liability for claims payments on covered losses. Claims exceeding coverage limits are the obligation of the respective government.

Financial Position

PEP’s financial statements (audited by other auditor’s) conform with generally accepted accounting principles, and reported the following assets, liabilities and net position at December 31, 2017.

<table>
<thead>
<tr>
<th></th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assets</td>
<td>$44,452,326</td>
</tr>
<tr>
<td>Liabilities</td>
<td>(13,004,011)</td>
</tr>
<tr>
<td>Net Position</td>
<td>$31,448,315</td>
</tr>
</tbody>
</table>

At December 31, 2017 the liabilities above include approximately $11.8 million of estimated incurred claims payable. The assets above also include approximately $11.2 million of unpaid claims to be billed. The Pool’s membership increased to 527 members in 2017. These amounts will be included in future contributions from members when the related claims are due for payment. As of December 31, 2017, the District’s share of these unpaid claims collectible in future years is approximately $7,000.

Based on discussions with PEP, the expected rates PEP charges to compute member contributions, which are used to pay claims as they become due, are not expected to change significantly from those used to determine the historical contributions detailed below. By contract, the annual liability of each member is limited to the amount of financial contributions required to be made to PEP for each year of membership.

<table>
<thead>
<tr>
<th></th>
<th>2017 Contributions to PEP</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$10,613</td>
</tr>
</tbody>
</table>

After one year of membership, a member may withdraw on the anniversary of the date of joining PEP, if the member notifies PEP in writing 60 days prior to the anniversary date. Upon withdrawal, members are eligible for a full or partial refund of their capital contributions, minus the subsequent year’s contribution. Withdrawing members have no other future obligation to PEP. Also upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim occurred or was reported prior to the withdrawal.

Note 8 – Defined Benefit Pension Plans

**Ohio Public Employees Retirement System**

The District’s employees belong to the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple-employer plan. The Ohio Revised Code prescribes this plan’s benefits, which include postretirement healthcare and survivor and disability benefits.

The Ohio Revised Code also prescribes contribution rates. OPERS members contributed 10%, of their gross salaries and the District contributed an amount equaling 14%, of participants’ gross salaries. The District has paid all contributions required through December 31, 2017.
Note 8 – Defined Benefit Pension Plans (Continued)

Social Security

The District’s board members contributed to Social Security. This plan provides retirement benefits, including survivor and disability benefits to participants.

Employees contributed 6.2 percent of their gross salaries. The District contributed an amount equal to 6.2 percent of participants’ gross salaries. The District has paid all contributions required through December 31, 2017.

Note 9 - Postemployment Benefits

OPERS offers a cost-sharing, multiple-employer defined benefit postemployment plan, that includes multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying benefit recipients of both the traditional pension and the combined plans. The portion of the employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0 percent during calendar year 2017.

Note 10 – Agreement with Wood County

The Wood County District Board of Health has a commitment to the Wood County Commissioners. The payments to the Wood County Commissioners are to be used toward the retirement of debt issued by the Wood County Commissioners for the construction of the District’s building. The roof on the building was repaired/replaced in late 2013, at a total cost of $157,283; this amount will be paid back to the Wood County Commissioners over a 7 year period beginning in 2013 and ending in 2019. Additionally, the boiler and air conditioning replacement projects were started in 2016 and completed in 2017, at a cost of $268,438; this amount will be paid back to the Wood County Commissioners over a 10 year period beginning in 2016 and ending in 2026. Amounts due under the agreements, including interest, are as follows:

<table>

### Total Federal Awards Expenditures

- $1,581,123

*The accompanying notes are an integral part of this schedule.*
WOOD COUNTY DISTRICT BOARD OF HEALTH
WOOD COUNTY

Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Wood County District Board of Health, Wood County, Ohio (the District) under programs of the federal government for the year ended December 31, 2017. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position, of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 Cost Principles for State, Local, and Indian Tribal Governments (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - SUBRECIPIENTS

The District passes certain federal awards received from the Ohio Department of Health to other governments or not-for-profit agencies (subrecipients). As Note B describes, the District reports expenditures of Federal awards to subrecipients when paid in cash. The following amount was passed through to the District’s subrecipient:

<table>
<thead>
<tr>
<th>Program Title</th>
<th>CFDA #</th>
<th>Amount Provided to Subrecipient</th>
</tr>
</thead>
<tbody>
<tr>
<td>Immunization Agreement Cooperative</td>
<td>93.268</td>
<td>$ 3,037</td>
</tr>
<tr>
<td>PPHF Capacity Building Assistance to Strengthen</td>
<td>93.539</td>
<td>$ 6,650</td>
</tr>
<tr>
<td>Public Health Immunization and Performance</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award’s performance goals.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.
INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS

June 22, 2018

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

We have audited, in accordance with auditing standards generally accepted in the United States and the
Comptroller General of the United States’ Government Auditing Standards, the financial statements of the
cash balances, receipts, and disbursements by fund type of the Wood County District Board of Health,
Wood County, (the District) as of and for the year ended December 31, 2017, and the related notes to the
financial statements and have issued our report thereon dated June 22, 2018, wherein we noted the
District followed financial reporting provisions Ohio Revised Code Section 117.38 and Ohio Administrative
Code Section 117-2-03(D) permit.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District’s internal control over financial
reporting (internal control) to determine the audit procedures appropriate in the circumstances to the
extent necessary to support our opinions on the financial statements, but not to the extent necessary to
opine on the effectiveness of the District’s internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow
management or employees, when performing their assigned functions, to prevent, or detect and timely
correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies
resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a
material misstatement of the District’s financial statements. A significant deficiency is a deficiency, or a
combination of deficiencies, in internal control that is less severe than a material weakness, yet important
enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this
section and was not designed to identify all internal control deficiencies that might be material
weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in
internal control that we consider material weaknesses. However, unidentified material weaknesses may
exist.
**Compliance and Other Matters**

As part of reasonably assuring whether the District’s financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

**Purpose of this Report**

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District’s internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE WITH REQUIREMENTS APPPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

June 22, 2018

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

Report on Compliance for the Major Federal Program

We have audited the Wood County District Board of Health’s (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could directly and materially affect Wood County District Board of Health’s major federal program for the year ended December 31, 2017. The Summary of Audit Results in the accompanying schedule of audit findings identifies the District’s major federal program.

Management’s Responsibility

The District’s management is responsible for complying with the federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor’s Responsibility

Our responsibility is to opine on the District’s compliance for the District’s major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States’ Government Auditing Standards; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District’s major program. However, our audit does not provide a legal determination of the District’s compliance.
Opinion on the Major Federal Program

In our opinion, the District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended December 31, 2017.

Report on Internal Control Over Compliance

The District’s management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District’s internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program’s compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program’s applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program’s applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
